Developing a strategy is one of the most important skills for an executive. As competitive pressures grow and the environment changes faster and more unpredictably, continuously evolving strategic planning becomes more vital than ever. What are the best ways for an organization to create a strategic advantage? Where can we find strategic opportunities in an increasingly globalized marketplace? Which strategies are likely to succeed?

Solid Growth - Strategy and Strategy Implementation provides insights into how you can design and execute a competitive strategy in both mature business lines and new enterprises to steer the organization's business activities in the right direction.

Who should attend?

Managers involved in strategic decision-making and implementation of business units in established companies as well as executives in new corporations seeking to generate strategic advantages.
